GRAHAM
MEDICAL ASSOCIATES

10

Reasons to use your Pediatrician instead of a Drugstore Clinic

- 1 We know you and your family. We have a partnership in your health care.
- 2 Your pediatricians are more knowledgeable about your child's complete medical history.
- 3 Pediatricians are equipped to handle life-threatening medical problems better than a retail clinic.
- 4 We maintain your comprehensive medical records.
- 5 Pediatricians offer a more-comprehensive set of services than a retail clinic.
- 6 We take time to address other medical issues and concerns beyond the current illness.
- 7 In the event you need to relocate and find a new practice, we will provide all medical records to your new pediatrician.
- 8 Minor conditions may actually mask larger problems that could be missed by a retail clinic.

- 9 Retail clinics don't provide follow-up care and can reduce your pediatricians knowledge of your child's over-all health.
- 10 We are your child's advocate.
