Family Wellness

Life can be challenging, but you are not alone. At Centerpoint Health, our licensed counseling and psychiatric staff integrate mental health and substance use services into our medical services to make sure you're managing all aspects of your health in the best way possible. We offer flexible schedules and provide compassionate, whole-person, patient-centered care in a way that consistently overcomes economic and cultural barriers.

Services include:

- Screenings and assessments for anxiety and depression
- Counseling and therapy, including adolescent-related issues
- Psychiatry for both adults

About Us

Mission and Vision

Centerpoint Health strives to be a local leader in improving the physical, social, and mental health of adults, children, and families.

The mission of Centerpoint Health is to engage patients in high quality, accessible, and affordable health care throughout Southwest Ohio.

Our goal is to improve the health outcomes and standard of living of the community. As a federally qualified health center (FQHC) and patient-centered medical home (PCMH), we are dedicated to providing primary care, dental care, integrated behavioral health, and outreach services to this community to the underserved on a sliding fee scale.

MISSION VISION
