

Jitesh Patel, MD
President and CEO of Advanced Urology
Urology and Urologic Surgery
Diplomate, American Board of Urology

Dr. Jitesh Patel is an expert in all aspects of urology, including BPH, OAB, IC, and pelvic organ prolapse. He is a leader in his field and at the forefront of technology, committed to providing high-quality care and personable service to patients every day. He is one of the top surgeons in the world implanting the Medtronic Sacral Nerve Stimulator for Overactive Bladder. Dr. Patel completed a six-year residency at Thomas Jefferson University and Hospitals. He is the founder of Advanced Urology and is committed to developing novel models of care that emphasize quality, service, and cost efficiency.

Tariq Hakky, MD
Male Reproductive Medicine and Urologic Surgery
Diplomate, American Board of Urology

Dr. Hakky is a specialist in erectile dysfunction, low testosterone, and infertility. He is a fellowship trained urologist in sexual medicine and infertility from Baylor College of Medicine in Houston, Texas. Dr. Hakky serves as Director of Men's Health Georgia here at Advanced Urology. He is internationally known for his minimally invasive penile

implant surgery with less than 1 inch incision. Dr. Hakky is the highest volume penile implant surgeon in Georgia and one of the top in the country.

Vishal Bhalani, MD
Urology and Urologic Surgery
Diplomate, American Board of Urology

Dr. Bhalani is a highly skilled robotic and minimally invasive surgeon who was recruited from Chicago where he served as the Chair of Robotic Surgery. He completed his training at the prestigious Northwestern Memorial Hospital in Chicago, ranked as one of the top urology programs. Dr. Bhalani also has a special interest in cutting

edge treatments for BPH, male and female urinary incontinence, pelvic organ prolapse, and is an expert in implanting Interstim for Overactive Bladder and urine retention. He performed the first urologic robotic cases at Emory Johns Creek Hospital and is one of the few urologists in the region who performs urethral reconstruction for stricture disease.

Derek Prabharasuth, MD
Urology & Urologic Surgery
Diplomate, American Board of Urology

Dr. Prabharasuth is a highly regarded surgeon in the minimally invasive treatment for all urologic disorders including kidney, bladder, and prostate cancer. His interests include minimally invasive treatment of stone disease, prostatic issues, and laparoscopic and robotic treatment of kidney and prostate cancer. He completed his Urology

Oncology, Minimally Invasive Surgery, and Robotics Fellowship at City of Hope Hospital in Duarte, California.

Mukesh Patel, MD
Urology and Urologic Surgery
Diplomate, American Board of Urology

Dr. Mukesh Patel has practiced urology in Gwinnett County for over 25 years. He has extensive experience in enlarged prostate, stone disease, and prostate cancer. He serves as prostate, stone disease, and prostate cancer. He is also a Board member of the American Urological Association and the Medical Association of Georgia. He is also a Board member of the Indian American Urological Association and the Baroda Medical College Alumni Association.

A. Dev Mally, MD
Urologic Oncologist
Urology and Urologic Surgery

Dr. Mally is a highly skilled surgeon specializing in complex cancer surgery, including robotic prostatectomy, robotic partial nephrectomy, and continent urinary diversion following radical cystectomy. He also has a special interest in BPH and Botox/Interstim for Overactive Bladder. Dr. Mally completed his Urologic Oncology Fellowship at the

prestigious Memorial Sloan Kettering Cancer Center in New York, which is ranked as the best US hospital in cancer care every year.

Grecori Anderson, MD
General Urology
Urology and Urologic Surgery

Dr. Anderson practices the full spectrum of urology with experience in a wide range of urologic procedures. He has a special interest in complex kidney stone surgery, female and male urinary incontinence, erectile dysfunction, and complex urologic trauma. Dr. Anderson is also experienced in robotic kidney, bladder, and prostate surgery. He

completed his urology training at Washington University in Saint Louis, Missouri.

Neal Patel, MD
Urology and Urologic Surgery
Minimally Invasive Laparoscopic and Robotic Surgery

Dr. Neal Patel is a nationally recognized urologic surgeon, author, and accomplished medical device inventor. He has held multiple leadership positions within organized medicine at both local and national levels. While Dr. Patel enjoys all aspects of urologic surgery he specializes in new advanced robotic techniques such as Intra-Corporeal Diversions, Retroperitoneal Access Robotic Surgery, and Zero Ischemia partial nephrectomy. Dr. Patel completed his Fellowship training at the USC Institute of Urology in Advanced Robotics and Laparoscopy.

T. Casey McCullough, DO, MBA, FACOS
Urology and Urologic Surgery
Diplomate, American Osteopathic Board of Surgery / Urological Surgery

Dr. McCullough is an accomplished urologic surgeon specializing in robotic and minimally invasive surgery for benign and malignant conditions of the urinary tract. His other interests include stone disease, minimally invasive treatments for BPH, cancer, urinary incontinence and

overactive bladder. Dr. McCullough completed his Fellowship in laparoscopic and robotic surgery at the prestigious L'Institut Mutualiste Montsouris in Paris, France, where the laparoscopic prostatectomy was pioneered.

Naveen Arora, MD
Urology and Urologic Surgery
Minimally Invasive Laparoscopic and Robotic Surgery

Dr. Arora specializes in all areas of urology; he has a particular interest in benign prostatic hyperplasia, kidney stone disease, overactive bladder, urinary incontinence, and in all aspects of urologic oncology. He has extensive experience and training in complex da

Vinci robotic operations including assisted prostatectomy, partial and radical nephrectomy, adrenalectomy, pelvic reconstruction for prolapse disease, and cystectomy with both urinary diversions. Dr. Arora completed a Fellowship in Urologic Oncology, Minimally Invasive and Robotic Surgery at the Levine Cancer Institute in Charlotte, NC.

ADVANCED UROLOGY

Advanced Urology provides cutting-edge comprehensive care for all urologic conditions. We offer same day appointments and surgery.

Our Services Include:

ATLANTA CENTER FOR URINARY CONTROL

- Overactive Bladder
- Incontinence
- Prolapse
- Urinary Frequency
- InterStim Therapy®

ADVANCED UROLOGY SURGERY CENTER

- Botox®
- InterStim Therapy®
- Lithotripsy for Kidney Stones
- Laser TURP
- Penile Implant Surgery
- UroLift®
- Rezum®

FERTILITY

- Fertility Preservation
- Microscopic Testicular Surgery
- Microscopic Sperm Aspiration
- Sperm Cryopreservation
- Vasectomy
- Vasectomy Reversal

MEN'S HEALTH

- BPH/
- Erecti
- Eleva
- Low
- Peyro
- Penile
- Prost
- Chron
- Rezu
- UroLi

FEMALE HEALTH

- Inters
- Recu
- Pelvic
- Surge

UROLOGIC ONCOLOGY

- Prost
- Bladd
- Kidne
- Robo

ADVANCED UROLOGY

Same Day Appointments
 Same Day Surgery
 All Insurances Accepted
